

Reception Class Home Learning

W/B 20/07/20

Date	Challenge 1	Challenge 2	Challenge 3
Monday 20th July	<p>Listen to "One is a snail, ten is a crab". https://www.youtube.com/watch?v=VyDTpj8uxs8 Label characters from the story.</p>	<p>Get a variety of animals from your toys or/and pictures of animals from the books and count how many legs they have. Do simple additions e.g. what if we have a person and a spider? Five is a dog and a snail, could five be anything else? Could it be five snails? etc.</p>	<p>Can you help your grown-up by taking some responsibility for recycling in your home? You could help your grown-up wash out a jar to go in the recycling bin, flatten down cardboard packaging, take the lids off plastic bottles or rinse out a plastic milk bottle to go in the recycling bin. Talk together about which items you can recycle and why it is so important to recycle when we can. You could also talk about ways in which you can reduce the amount of plastic you use in your house e.g. using a Bag for Life, having a reusable water bottle, buying a metal straw that you can use again and again instead of plastic ones.</p>
Tuesday 21st July	<p>What is your favourite memory from being in Reception? Can you draw a picture or/and write then tell someone about it? It may be hard to think back so far so here are some ideas: Harvesting fruits and vegetables and finding magical plant growing 'mustache' for everyone :) Baking apple and blackberry crumble. Carving pumpkins and making pumkin soup. The Nativity. Acting out traditional tales and woodland stories. Creating scaffolding and exploring ice. Maths challenges e.g. creating 3D shapes using playdough and sticks and our everyday number explorations. Creating pictures by painting, printing, drawing, sticking and lots of other different technics. Creating the scenes from stories and lots more!</p>	<p>Discover the different ways numbers can be represented in this number representation song. https://www.youtube.com/watch?v=IAQ2HTqTl2w&feature=emb_logo Can you think of a new way to represent your favourite numbers? In the "One is a snail, ten is a crab" book, they have used how many feet on animals but you could use anything you like. Can you draw your ideas?</p>	<p>Create a prayer of thanks for something you have loved this year and hopes for your Year 1 adventure!</p>

We hope you all have had the most incredible time in Reception Year, even if it has been a little bit of a strange one, we will miss you all very much! Have a great summer!
